MISSION

The mission of the Community Foundation for the Greater Capital Region is to strengthen our community through philanthropy.

The Foundation accomplishes this in collaboration with donors and community partners who share our vision for community transformation through stewardship of charitable endowments, superior donor services, effective grantmaking and leadership to address community needs.

ABOUT THE COMMUNITY FOUNDATION

The Community Foundation helps promote philanthropy in our region by matching individuals, families and organizations with the issues they care about and providing them with efficient and effective giving strategies. Our donors are as diverse as our community and come to the Community Foundation for many different reasons. They are united by a desire to be part of creating a brighter future for the greater Capital Region.

The Community Foundation manages more than 400 funds which are allocated to meet donors' philanthropic goals and the changing needs in our community. These charitable funds have granted nearly \$70 million since the Foundation's creation in 1968. Often, multiple funds or donors join together to make grants with greater impact than one donor could make alone. All assets are collectively invested, offering donors access to investment strategies and management normally available only to large investors, allowing them to achieve maximum returns.

The majority of grants made by the Community Foundation each year are in partnership with individuals, families and organizations who ask the Foundation to facilitate their giving. Many of our donors enjoy the flexibility of donor advised funds, which allow them to recommend grants to support specific charitable organizations or causes. **Several of our funds have chosen to solicit applications for grants. These funds are among those described in this publication.**

The Foundation also manages several funds that allow discretion to make grants that fund innovative, creative projects and programs that are responsive to changing community needs. These funds, our "Community Impact Funds," are either Discretionary Funds, which allow the Foundation the flexibility to use its extensive knowledge of community issues and organizations to make grants that address emerging issues; or Field of Interest Funds, which give the Foundation grantmaking discretion within given areas of interest. With these Community Impact Funds, the Foundation utilizes the expertise of its staff and Board of Directors to identify opportunities to make grants that will have the most impact in the community. Community Impact Funds are described on page 5 of this document.

Community Foundation Impact Grants

FUNDING PRIORITIES

The Foundation manages several funds that allow discretion to make grants that fund projects and programs that are responsive to changing community needs. These funds, our “Community Impact Funds,” are either **Discretionary Funds**, which allow the Foundation the flexibility to use its extensive knowledge of community issues and organizations to make grants that address emerging issues; or **Field-of-Interest Funds**, which give the Foundation grantmaking discretion within given areas of interest. With these funds, the Foundation utilizes the expertise of its staff and Board of Directors to identify opportunities to make grants that will have the most impact in the community.

IMPACT GRANTS

Due to restrictions placed on some of our funds by our donors, preference may be given to organizations and/or programs that address the following issues:

1. **Disabilities:** Organizations/programs that serve the needs of the intellectually and/or physically disabled, including the hearing and sight impaired;
2. **Classical Music:** Organizations/programs that benefit the field of classical music. This may include, but is not limited to, classical music performance, teaching and the commissioning of new works;
